The Ast appeal of the Democratic ndidates for campaign contributions as issued to-day, directed to the rmers of the country. It is as fol-

"To the Farmers of the United States:

"The first contribution made to the Democratic campaign fund this far as we know, was

ask from the survey of their rights and consideration for the general welfare.

There are hundreds of thousands of farmers who are abundantly able to contribute to the campaign. There are thousands who could give \$100 aplece without feeling it; there are thousands who could give \$50 aplece without sacrifice, and still more who could give \$50 aplece without as a still more who could give \$25 and still more who could give \$25 and still more who could give \$25 and still more who could give \$25 for \$15 or \$5. As the national committee has not yet been organized, we will ask The Commoner to call for subscriptions to this farmers' fund. Those giving may indicate whether they are willing to have their names mentioned, and, if the contribution is not more than \$100, their wishes will be compiled with All contributions above \$100 must be made known, no matter from whom they come.

"The farmers' fund will be turned over to the national committee as soon as its permanent officers have been selected. Who will be the first to respond? The Denver convention was a people's convention; it adopted a strong, clear, honest platform, and its nominations were made with practical unanimity. Our fight is a fight for the whole people, Our aim is equal and exact justice to all; our purpose is to restore the government to the hands of freely chosen representatives of the voters. How many farmers will join in furnishing the funds necessary to present the issues?

(Signed) "WM J. BRYAN."
